

# Manual de instalação de Certificado Digital em browser Mozilla Firefox

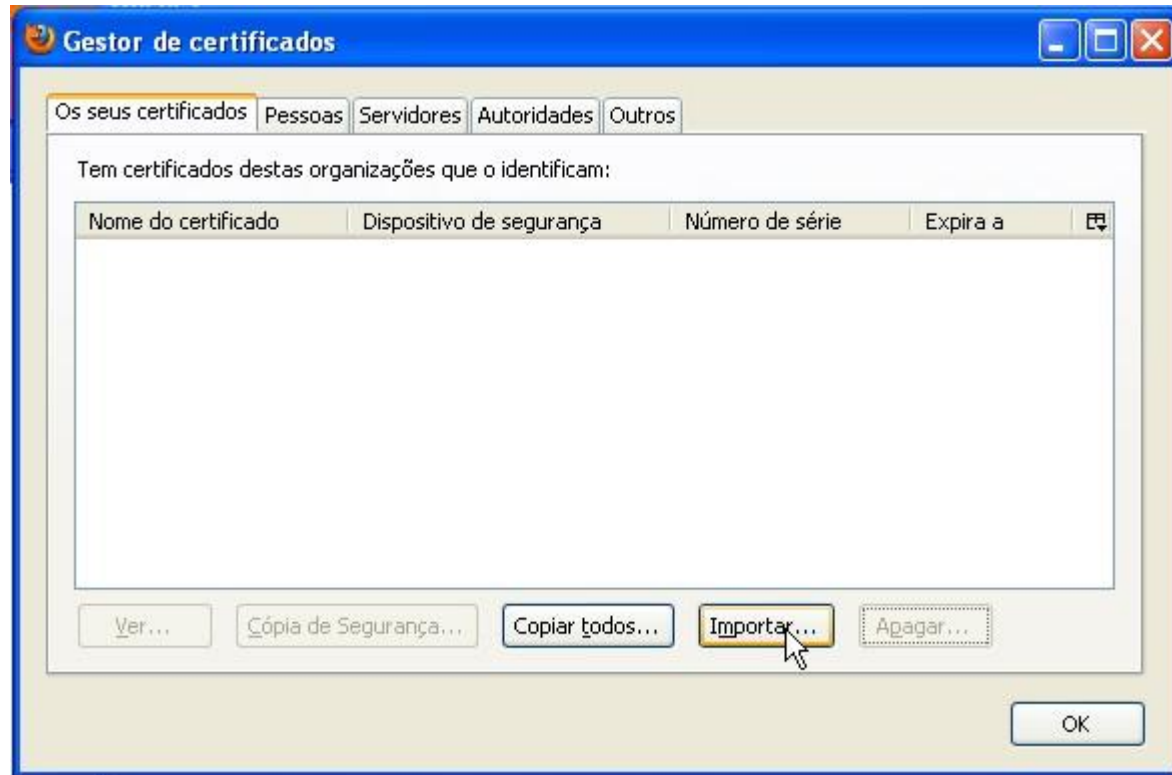

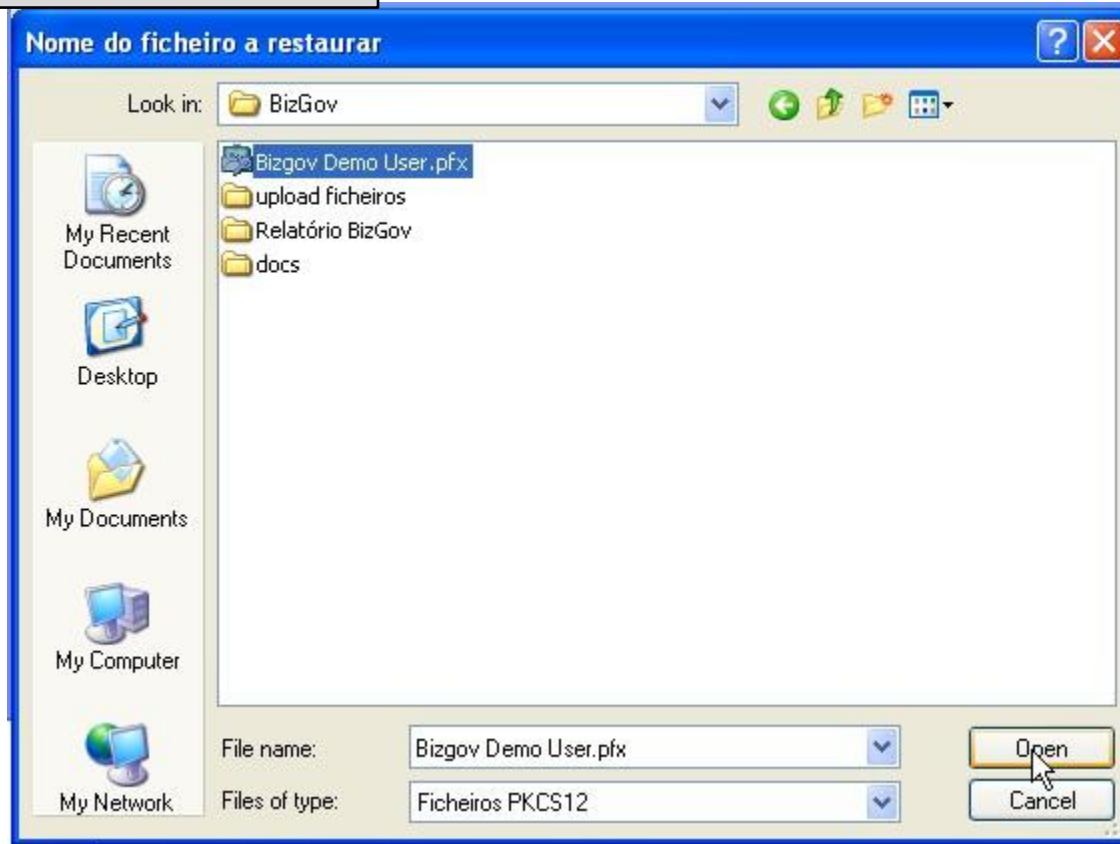

Clicar no menu Ferramentas >> Opções...

Clicar em Avançado >> Cifra

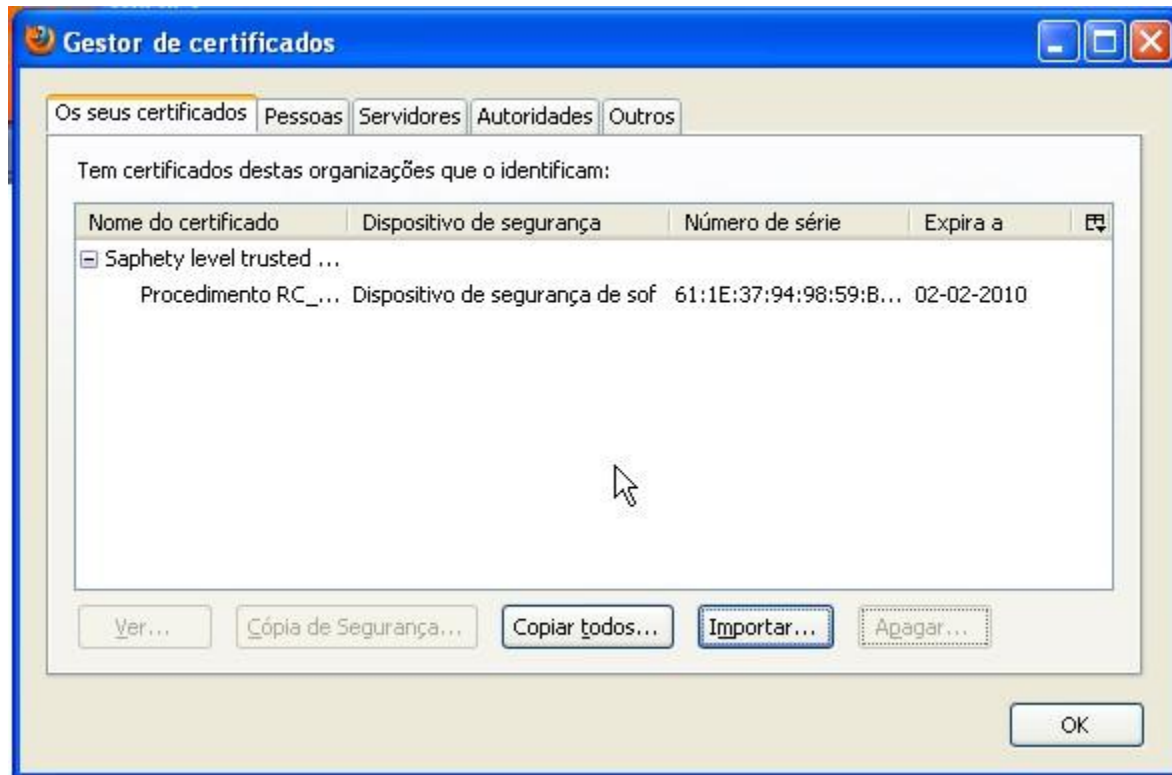

Escolher o certificado pretendido

Introduzir a password do certificado

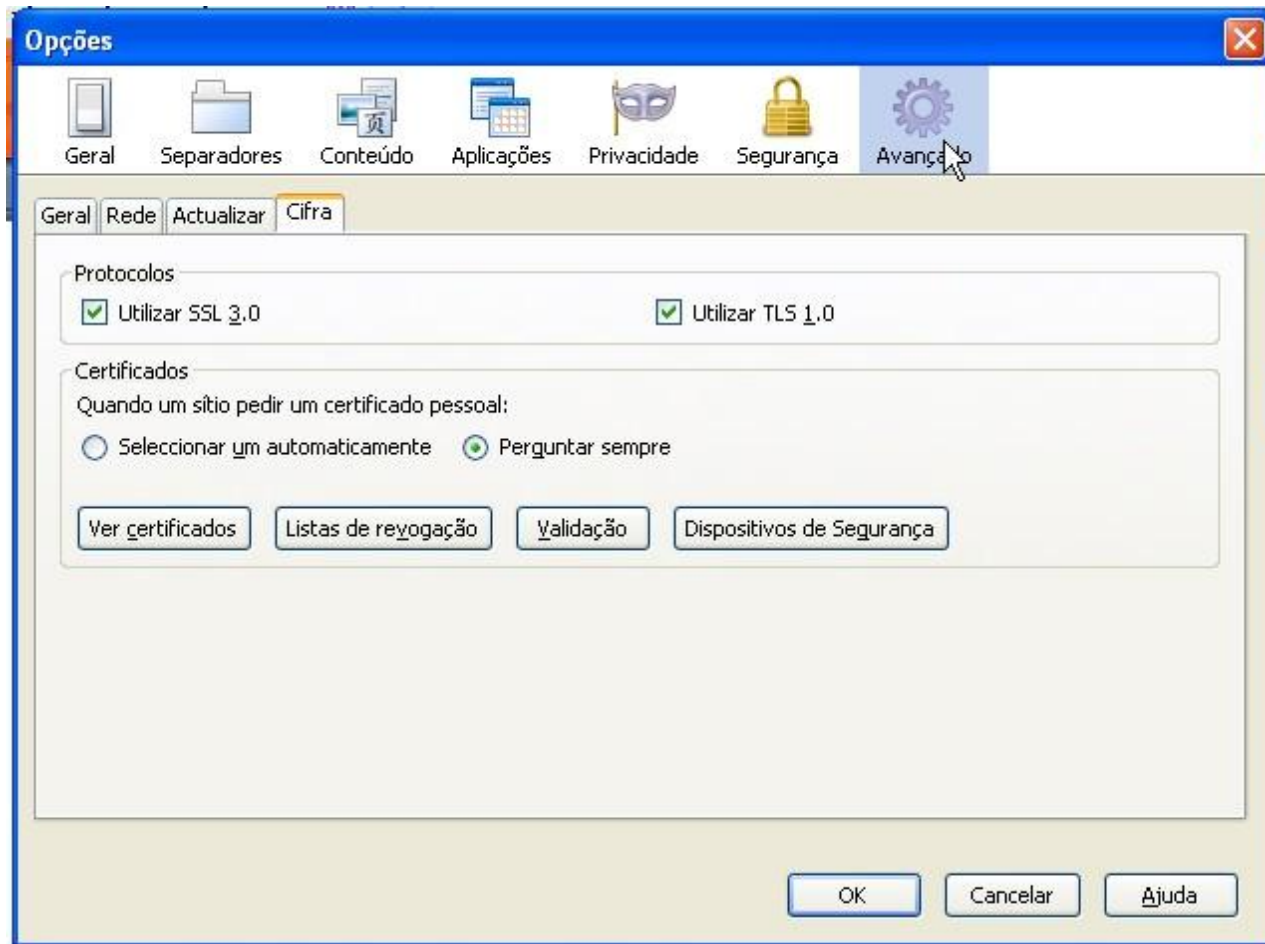

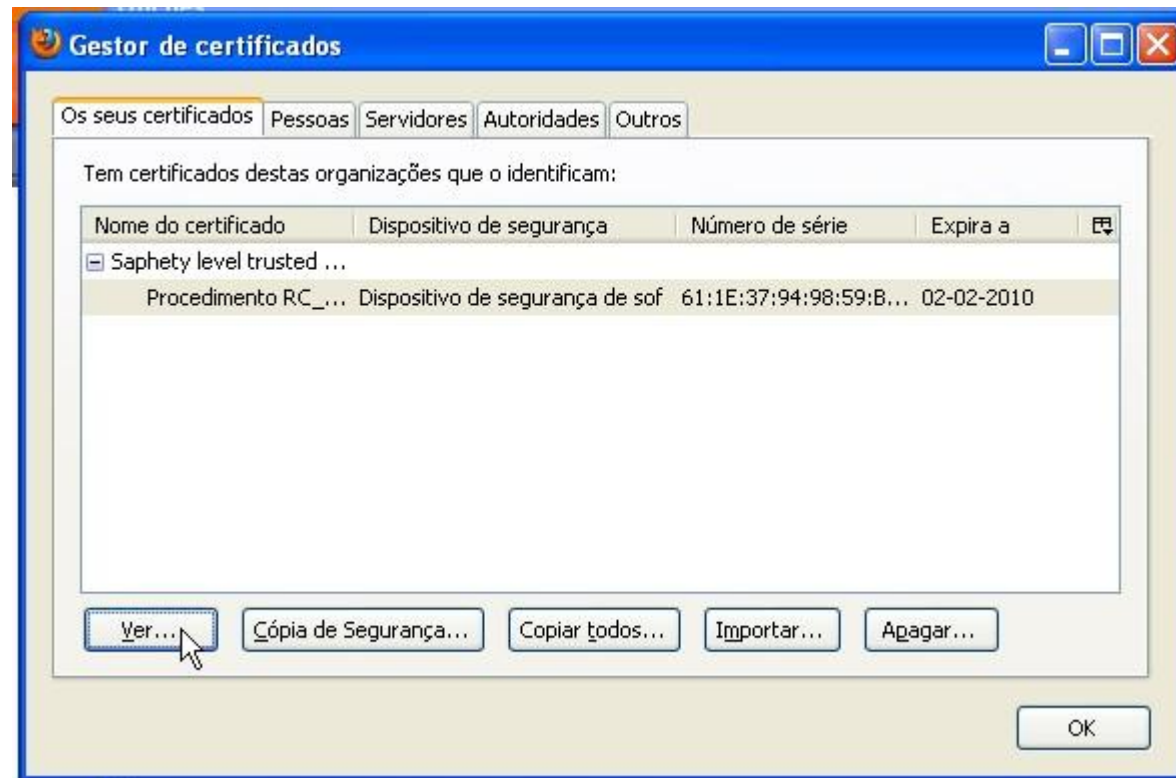

The screenshot shows a Mozilla Firefox browser window titled "BizGov - Sejam bem vindos - Mozilla Firefox". The address bar shows the URL "/loginAction/index.action" and the search engine is set to "sql having count". The browser's toolbar includes buttons for "Destacar", "Redimensionar", "Ferramentas", "Código fonte", and "Opções". The "Ferramentas" menu is open, showing options like "Pesquisa web", "Transferências", "Extras", "Web Developer", "Java Console", "Console de erros", "Informação da página", "Iniciar navegação privada", "Limpar histórico recente...", and "Opções...". A mouse cursor is pointing at the "Opções..." option. The main content area of the browser shows the Saphety website header with the logo and navigation links "LOGIN" and "AJUDA". On the right side, there is a "Login" form with fields for "Utilizador:" and "Palavra chave:", and a "Login" button. At the bottom of the browser window, the system tray shows the date and time "03-08-2009 17:04:42" and the system status bar with weather information: "Agora: Ensolarado, 29 °C", "Ter: 30 °C", and "Qua: 28 °C".
